

**BROOKLYN
FRIENDS
SCHOOL**

March 13, 2020

Dear Middle School Community,

[Please see my video](#) for the launch of virtual school in the BFS Middle School today, Friday, March 13 at 9:00 am, linked here. Using the Student Schedule shared with students earlier this week, students will log in to Google Classroom Friday for a day of remote learning.

Students should reach out to our tech department at [http://techoffice@brooklynfriends.org](mailto:techoffice@brooklynfriends.org) if they run into problems with technology. For any other issue, students should contact their advisor.

[My video message](#) contains important remote learning expectations for students as well as my appreciation for your patience, to my colleagues throughout the school, and to Middle School teachers who have made an extraordinary effort to support students during this challenging time.

I hope that you can find peace during the spring break, and I look forward to connecting again soon!

Glen Pinder
Head of Middle School
